

# KX Rolling Door Motor

## KX电动卷门机

### 产品特点

- 通过电力驱动卷帘门的开启与关闭。
- 操作上、下行程由限位开关自动控制，定位精确可靠，开闭安全。
- 停电时，可手动操作，方便省力。
- 电动机绕组装有过热保护装置。
- 单相卷帘门机还特设停机时电容自动放电装置，便于安全检修。
- 易安装、低噪音、低功耗。

### FEATURES

- Roller shutter opened and closed by the power-driven operation.
- Limit switch unit enables precise adjustment of door in both up and down position.
- In case in the absence of power, a release chain can be operated door manually.
- Powerful strength, overheat protection when overloaded.
- One-phase rolling door motor has the capacitance automatic discharge device for security overhaul.
- Easy installation, low noise, small power consumption.
